SETTING SALUS THERMOSTATS.

1. Decide whether you want to use the same program 7 days a week or whether you'd prefer to have different settings for weekday and weekends.
Slide the toggle marked PROGRAM on the back of the control unit to whichever choice you prefer ; 7 days or 5days/2 days.

Then press the RESET button on the front of the unit using a pen or sharp point.

2. SET THE TIME:
Press & hold SET and SELECT for a few seconds then release both keys.

The hour digits will be flashing. Press UP or DOWN to set correct hour.
Then press SELECT to move to minutes and set them correctly too.
Press SELECT again to move to set the day.
When finished, press SET.

3. SET YOUR PROGRAM TIMES
IF IN 5/2 DAY MODE five different sets of time and set point temperatures can be set for Weekdays or Weekends.
IF IN 7 day mode five different sets of time and set point temperatures for each day of the week.
The programs are numbered 1-5.
Press the SET key
The LCD display will display programme number 1 and SET PROG, with all other indicators cleared. The weekdays will be flashing to indicate they are the selected item and are ready to be adjusted.
If you don't want to change Program 1 then Press UP or DOWN to choose which program you need to set.
Press SELECT ro confirm the choice.
The Hours display will flash.
Press UP or DOWN to choose the start time for the program.
 Press SELECT to confirm.
Repeat to set MINUTES & then TEMPERATURE.
Once you've done this for the program it will automatically move on for you to set the next program.
When finished, press SET.

The thermostats come with a default program setting as follows:

Programme	Output	Weekday	Weekend
1	ON	6:00 AM	6:00 AM
	TEMP	21 ºC	21 ºC
2	ON	8:00 AM	8:00 AM
	TEMP	14 ºC	21 ºC
3	ON	4:00 PM	4:00 PM
	TEMP	21 ºC	21 ºC
4	ON	6:00 PM	6:00 PM
	TEMP	21 ºC	21 ºC
5	ON	10:00 PM	10:00 PM
	TEMP	14 ºC	14 ºC
